

Dear Parents and Guardians,

I just wanted to give you some information on our new automated message system. This system will allow us to call your phone and give you information about school cancellations, delays, unscheduled early releases and planned events. If you receive a call from Horizon Academy West, please listen to the message first before contacting our office. I hope this updated technology will be useful to you as we try to improve on our communication with you. Have a great weekend!

Cynthia Carter ~*Principal*
