From the desk of our Health Assistant

Parents,

It's been a rough cold and flu season. Last week I sent a chart home on when to keep your children home. We still have parents sending their children to school with fevers and flu symptoms. Please review the chart, this will help answer questions on when you should send your children to school if they are feeling ill.

Also remember that students should NEVER have medication on them. Even if it is over the counter medication. ALL medications must be checked into the office. Medication will be sent home with an adult at the end of the day. We will NOT send medication home with your child.
